

Sheffield Innovation Spine

Creating space for your
company to thrive in the
city centre.

Shape the decisions

Sheffield Innovation Spine

The city centre is already organically adapting to the growing innovation ecosystem.

By sharing your company growth plans, you can influence the development of the city centre to meet your needs.

Together, we can make informed decisions to create an environment for your company to thrive.

Building investment confidence

The city centre boasts a wealth of assets that could be converted into dedicated to innovation space.

Data-driven decisions will help unlock smart city centre investments.

The Sheffield Innovation Spine project is aggregating data from companies to create a dynamic platform that informs and guides strategic development.

Quantifying the demand

- More than fifty innovation-led companies have expressed interest in the Sheffield Innovation Spine.
- Coordinated sharing of demand will catalyse investment into new facilities.
- Innovation-led companies are asked to **forecast and share their current and future property needs** to help shape the city's future.

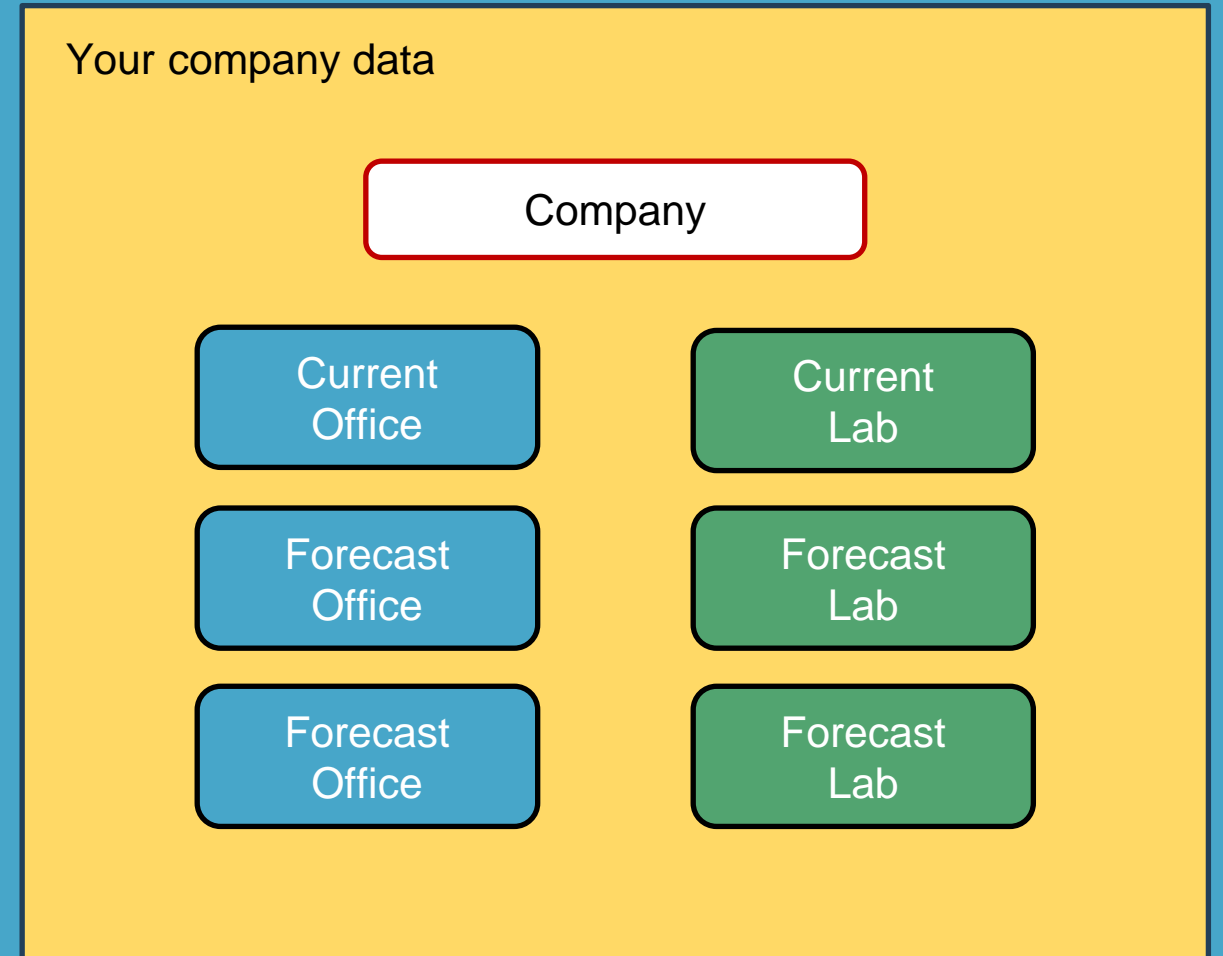

Sharing your forecasts

Innovation companies seeking space in the city centre can voluntarily submit their forecasts through three webforms:

- **Company** details
- **Lab** requirements
- **Office** requirements

Initial data submission should take 20-30 minutes.

You will be asked to periodically check these forecasts – e.g. every 6 months.

Managing and using your data

- We will use your data to produce anonymised reports and data dashboards to inform public and private decision makers.
- If your company identifies a short term need then, with your permission, we may introduce you to the support available from the Business Sheffield team.

Your data will be stored under the data protection policy of Sheffield Technology Parks.

By making a submission you are granting permission for your data to be shared with the Sheffield Innovation Spine partners (Sheffield Technology Parks, University of Sheffield, Sheffield City Council, Sheffield Hallam University and South Yorkshire Mayoral Combined Authority).

Sharing your forecasts

Company details

- This [webform](#) asks about your business, your current location and the key contact for forecasting.
- **This only needs to be submitted once per company.**

Company information

Please use this webform to submit general information relating to your company. Skip any questions that are not relevant or that you are unable to answer. Use the comments box to provide any additional information and to tell us if you think we should add or edit a question.

Company name

Add another

Current primary location (city only, e.g. Sheffield, UK)

Current primary location in Sheffield, if applicable (e.g. Sheffield Technology Parks, OXO House, Pennine Five)

Sharing your forecasts

Office requirements

- Submit your forecast office requirements using this [webform](#).
- We ask companies to submit the webform 2 or 3 times to cover:
 - Current office space
 - Forecasted requirements based on your major growth milestones

Please use the “required by” date to differentiate the submissions

Office Space

Please use this webform to submit information relating to your current and future laboratory needs. Skip any questions that are not relevant or that you are unable to answer. Use the comments box to provide any additional information and to tell us if you think we should add or edit a question. Please make multiple submissions to share you current lab use and your future requirements (e.g. in 2 years time).
